H7(S)	█	█	█	1,8

* Alle Typen von Schleif-Chips aus unserer Produktion können mit einer Anti-Schaum Formel versehen werden, die die Quantität des in der Regel bei Vibrationsbearbeitung anfallenden Schaumes um das 5 bis 6-fache reduziert. Die Eigenschaften und die Qualität des Schleif-Chips an sich ändern sich durch diesen Zusatz nicht. Um diese Formel in der Bestellung zu identifizieren, reicht es aus, dem Waren-Code des Schleif-Chips ein "S" hinzuzufügen.

Beispiel: Der Standard-Typ RX wird, mit Anti-Schaum Formel versehen, zu RXS
