RX10(S)	[Yellow bar]										[Blue bar]										[Grey bar]	1,79
R41(S)	[Yellow bar]										[Blue bar]										[Grey bar]	1,75
RX(S)	[Yellow bar]										[Blue bar]										[Grey bar]	1,8
E42(S)	[Yellow bar]										[Blue bar]										[Grey bar]	1,82
RPM(S)	[Yellow bar]										[Blue bar]										[Grey bar]	1,86
E6Y(S)	[Yellow bar]										[Blue bar]										[Grey bar]	1,89
H7(S)	[Yellow bar]										[Blue bar]										[Grey bar]	1,8

* All of our abrasive plastic media can also be supplied with an anti-foam formulation which reduces from 5 to 6 times the amount of foam normally produced in vibratory machines, without affecting their properties and quality.

To order this formulation, simply add an S to the name of the media.

Example: the standard type RX becomes, with the antifoam formulation, RXS
